If you've already completed Illusion don't worry about this expansion. Completed within 10 minutes much like many others, a little too easy for the amount of detail put into the map. Still great puzzle design if you are looking for that little bit extra.. My friend and I enjoyed this one very much. The ambience and puzzles were well thought of. But I must agree with other reviews that it was much too short compared to the Mine, Illusion, and Cold As Ice. But I will still recommend it because it was a good bit of fun with a good friend.. little effort put into this DLC, beat it in 20 minutes, puzzles were super easy. well i cant even say that was an experience because as soon as we began it was over. This map was very short that my friends and I completed it in about ten minutes. After the hour long struggle we had in illusion we had high hops for this dlc but sadly the were not met. The Ryyhargon are not pleased. Very short and in comparison to the illusion DLC does not live up to expectations. Allot of the clues pretty much next to their relavent puzzle and are pretty simple to solve.. the map was ok but short and easy, if you compare it to illusion. unless you want to get disappointed you should play this before you do illusion.
